**Koolkuna Safety**

- **Ordering Made Simple**
- **KOOLKUNA**
- **Example 1**
  - Switch: 6K15-3-14-S1-0-XB-R
  - Will give you: 315A/132kW/185mm Switch
  - 3 Pole Isolator
  - Basic Mechanical Interlock
  - Metal Handle
  - 20A Auxiliary
  - 1 N/O, 1 N/C
  - Powder Coated X15 Orange
  - 6mm Brass Gland Plate
- **Example 2**
  - Switch: 6K200-4-00-G1-3-B5-R
  - Will give you: 200A/75kW/95mm Switch
  - 4 Pole Isolator
  - Interlock
  - Gold Auxiliary
  - 1 N/O, 1 N/C
  - A Voltage Test Station
  - Bead Blast Finish
  - 2mm 316 S/Steel Gland Plate

**Please see examples below to help and please don’t hesitate to contact us for further assistance.**

- Choose your switch size
- How many poles, 3 or 4?
- What type of interlock mechanism do you require?
- Which handle do you want?
- Choose the auxiliary contacts you need
- Select the auxiliary contact function you want
- Do you need a PESD for further safety? Pick the appropriate PESD.
- Which finish is required?
- What type of gland plate do you want?
- Do you require a rainhood?

**Trademark**

- Koolkuna = Safety
- Kooralinda = Comfort

**Examples**

- **Example 1**
  - 315A/132kW/185mm Switch
  - 3 Pole Isolator
  - Basic Mechanical Interlock
  - Metal Handle
  - 20A AUX
  - 1 N/O, 1 N/C
  - Gold AUX
  - 1 N/O, 1 N/C
  - Voltage Test Station
  - Bead Blast Finish
  - 2mm 316 S/Steel Gland Plate
- **Example 2**
  - 200A/75kW/95mm Switch
  - 4 Pole Isolator
  - Interlock
  - Gold AUX
  - 1 N/O, 1 N/C
  - A Voltage Test Station
  - Bead Blast Finish
  - 2mm 316 S/Steel Gland Plate
Why choose the Koolkuna range?

Since 1907, Kraus & Naimer has led the way in switchgear quality and innovation through its worldwide network of factories and branches. Recognised as an industry leader in the international and Australian markets, Kraus and Naimer combines big business capability with small business ideals.

Driven to provide excellence in customer experience, Kraus and Naimer’s local branches listen and respond to their client’s unique needs. This has resulted in the release of the Koolkuna range of enclosed stainless steel safety isolators.

Our customers have told us that they want to have a clear view of the moving contact within the switch to give complete peace of mind about the status of the contact. Kraus & Naimer has an existing range of switches with visible contacts and a long-standing history of dependability, so it was simply a matter of developing a more suitable way of mounting the switch so the contacts could be viewed clearly.

The innovative addition of an extra door hinging from the side meant proven and certified interlocking mechanisms could be utilised, a simple and reliable solution. The inventive design combines established mechanisms with visible contacts.

With the Koolkuna range, you have the satisfaction that safety has been effectively achieved and reliability is 100% assured. And this is how our range got its unusual name. ‘Koolkuna means ‘a place of safety’.
